

# Assisted Living Visit Types

There are several different visit types available to assisted living tenants and their families and loved ones. While these are all subject to change depending on a variety of variables, below are descriptions of the three visit types currently available.

## 1. Outdoor visits

- These visits are available for anyone wanting to visit with a tenant. They are scheduled in advance by calling our Assisted Living at Lakewood Pines 218-894-4460 or Lakewood Manor 218-894-2124. These visits are held on Tuesdays and Fridays. During the visit, the tenant and their visitor(s) are seated six feet apart on our outdoor space, wearing masks for the duration of the visit.
- All visitors must be screened prior to the visit. The number of visitors is determined on a case-by-case basis. Visits are limited to 30 minutes to allow adequate time for cleaning between visits.
- Tenants in quarantine are not eligible for this type of visit.

## 2. Essential caregiver (EC) visits

- For these visits, tenant has designated someone who is providing them essential care. This care can range from emotional support, to bathing or hair care. The caregiver needs to call the Lakewood Pines at 218-894-4460 or Lakewood Manor at 218-894-2124 to set up their education and initial visit.
- There are a limited number of EC visitors allowed per day.
- All visitors must be screened prior to the visit, and they will wear a mask and eye protection for the duration of the visit. There should be no eating, drinking or kissing. Education from an assisted living nurse will happen on the first visit, and social distancing from other tenants and staff should be respected.
- Tenants are encouraged to wear a mask during these visits.
- Tenants in quarantine are not eligible for this type of visit.

## 3. Compassionate care visits

- These visits are available for the families of a tenants with extenuating circumstances, such as end-of-life. Visits are scheduled on a very limited basis and set up by calling the Assisted Living nurse at Lakewood Pines: 218-894-4460 or Lakewood Manor: 218-894-2124. Only immediate family members or designees (up to two per visit) are allowed for a visit up to four hours.
- Visitors must be screened prior to the visit, and they will wear appropriate personal protective equipment for the area of the building they visit.
- There are no limitations to the number of compassionate visits allowed for tenants who meet the criteria, but the visits are intended for a limited number of reasons that cannot be met during outdoor or EC visits.
- Tenants in quarantine are eligible for this type of visit, but the visit may be impacted, or considerations made to limit exposure.
