NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

During your treatment at Lakewood Health System, doctors, nurses, and other caregivers may gather information about your medical history and your current health. This Notice of Privacy Practices (this "Notice") explains how that information may be used and shared with others. It also explains your privacy rights regarding this kind of information. The terms of this Notice apply to health information created or received by Lakewood Health System.

We are required by law to: make sure that medical information that identifies you is kept private; give you this Notice of our legal duties and privacy practices with respect to medical information about you; follow the terms of the Notice that is currently in effect; and notify you in the event there is a breach of any unsecured protected health information about you.

YOUR MEDICAL INFORMATION MAY BE USED AND DISCLOSED FOR THE FOLLOWING PURPOSES:

Treatment: We may use your information to provide, coordinate, and manage your care and treatment. For example, a Lakewood Health System provider may share your medical information with another provider for a consultation or a referral. We will get your written consent prior to making disclosures outside of Lakewood Health System for treatment purposes, except in emergency circumstances when it is not possible to get your consent.

Payment: We may use and disclose medical information about you so that the treatment and services you receive may be billed to, and payment may be collected from, you, an insurance company, or another third party. For example, we may need to give your health plan information about treatment you received at Lakewood Health System so your health plan will pay us or reimburse you for the treatment. We may also tell your health plan about a treatment you are going to receive to obtain prior approval, to determine whether your plan will cover the treatment or for purposes of an independent review of a denial of a claim based on lack of medical necessity. We will get your written consent prior to making disclosures for payment purposes.

Health Care Operations: We may use and disclose medical information about you for Lakewood Health System's health care operations. Health care operations are the uses and disclosures of information that are necessary to run Lakewood Health System and to make sure that all our patients receive quality care. For example, we may use medical information to review our treatment and services, and to evaluate the performance of our staff and physicians in caring for you. We will get your written consent before making disclosures to others outside of Lakewood Health System for health care operations purposes.

Chemical Dependency/Substance Use Disorder Treatment Information: If we receive or maintain any information about you from a substance use disorder treatment program that is covered by the regulations at 42 CFR Part 2 (referred to as a "Part 2 Program") under a general consent you gave to the Part 2 Program to use and disclose the Part 2 Program record for purposes of treatment, payment or health care operations, we may also use and disclose your Part 2 Program record for treatment, payment and health care operations purposes as described in this Notice and subject to Minnesota law. However, if we receive or maintain your Part 2 Program record under a specific consent you provide to us or another third party, we will use and disclose your Part 2 Program record only as expressly permitted by you in the specific consent.

SOURCE: HIPAA

We will not use or disclose your Part 2 Program record, or testimony that describes the information contained in your Part 2 Program record, in any civil, criminal, administrative, or legislative proceedings by any Federal, State, or local authority, against you, unless authorized by your consent or the order of a court after it provides you notice of the court order.

Appointment Reminders and Other Health Information: We may use your medical information to send you reminders about future appointments. We may also send you refill reminders or other communications about your current medications. However, if we receive any financial remuneration for making such refill or medication communications beyond our costs of making the communication, we must first obtain your written authorization to make such communications. We may contact you with information about new or alternative treatments or other healthcare services or for purposes of care coordination, unless we receive financial remuneration in exchange for making the communication; in that case, we will obtain your written authorization to make such communications. However, we are not required to obtain your written authorization for face-to-face communications.

Fundraising: As permitted by federal law, Lakewood Health System, one of its business associates or Lakewood Health System's Foundation may use certain information about you (specifically, your name, address, age, gender, date of birth, and other demographic information; dates you received health care from Lakewood Health System; department of service information; treating provider; outcome information and health insurance status) to let you know about opportunities to raise funds for Lakewood Health System. You have the right to opt-out of receiving such fundraising communications. Each fundraising communication you receive will include an opportunity to opt-out of future fundraising communications. Alternatively, you may notify the Foundation at 218-894-8711 to opt-out of fundraising communications.

Facility Directory: We may include certain limited information about you in our directory while you are a patient. This information may include your name, location in the facility, general health condition, and your religious affiliation if you provide this information to us. The directory information, except for your religious affiliation, may be released to people who ask for you by name. This is so your family, friends and clergy can know your location. Your religious affiliation may be given to a member of the clergy, such as a priest or rabbi, even if they don't ask for you by name. If you would prefer that Lakewood Health System not make these disclosures, please notify the Patient Access Manager at 218-894-8687.

To People Assisting in Your Care: Lakewood Health System will only disclose medical information to those taking care of you, helping you to pay your bills, or other close family members or friends if these people need to know this information to help you, and then only to the extent permitted by law. We may, for example, provide limited medical information to allow a family member to pick up a prescription for you. Generally, we will get your written consent prior to making disclosures about you to family or friends. If you are able to make your own healthcare decisions, Lakewood Health System will ask your permission before using your medical information for these purposes. If you are unable to make healthcare decisions, Lakewood Health System will disclose relevant medical information to family members or other responsible people if we feel it is in your best interest to do so, including in an emergency situation.

Research: Federal law permits Lakewood Health System to use and disclose medical information about you for research purposes, either with your specific, written authorization or when the study has been reviewed for privacy protection by an Institutional Review Board or Privacy Board before the research begins. In some cases, researchers may be permitted to use information in a limited way to determine whether the study or the potential participants are appropriate. Minnesota law provides that you may object to our disclosure of your health information to an

SOURCE: HIPAA

external researcher and requires us to use reasonable efforts to obtain your written general authorization prior to the disclosure.

As Required by Law: We will disclose medical information about you when we are required to do so by federal, state or local law.

To Avert a Serious Threat to Health or Safety: We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure must be to someone able to help prevent the threat and made in accordance with applicable law, including, for example, Minnesota's "duty to warn" laws.

To Business Associates: Some services are provided by or to Lakewood Health System through contracts with business associates. Examples include Lakewood Health System's, attorneys, consultants, collection agencies, and accreditation organizations. We may disclose information about you to our business associates so that they can perform the job we have contracted with them to do. To protect the information that is disclosed, each business associate is required to sign an agreement to appropriately safeguard the information and not to redisclose the information unless specifically permitted by law.

YOUR MEDICAL INFORMATION MAY BE RELEASED IN THE FOLLOWING SPECIAL SITUATIONS:

Organ and Tissue Donation: We may release your medical information to organizations that handle organ procurement or organ, eye or tissue transplantation, or to an organ donation bank, as necessary to facilitate organ or tissue donation and transplantation. The information that Lakewood Health System may disclose is limited to the information necessary to make a transplant possible.

Military and Veterans: If you are a member of the armed forces, we will release medical information about you as requested by military command authorities if we are required to do so by law, or when we have your written consent. We may also release medical information about foreign military personnel to the appropriate foreign military authority as required by law or with written consent.

Workers' Compensation: We may release medical information about you for workers' compensation or similar programs. These programs provide benefits for work-related injuries or illness. We are permitted to disclose information regarding your work-related injury to your employer or your employer's workers' compensation insurer without your specific consent, so long as the information is related to a workers' compensation claim.

Public Health: We may disclose medical information to public health authorities about you for public health activities. These disclosures generally include the following:

- Preventing or controlling disease, injury or disability;
- Reporting births and deaths;
- Reporting child abuse or neglect, or abuse of a vulnerable adult;
- Reporting reactions to medications or problems with products;
- Notifying people of recalls of products they may be using;
- Notifying a person who may have been exposed to a disease or may be at risk for contracting or spreading a disease or condition; and
- Reporting to the FDA as permitted or required by law.

SOURCE: HIPAA

Health Oversight Activities: Lakewood Health System may disclose medical information to a health oversight agency for health oversight activities that are authorized by law. These oversight activities include, for example, government audits, investigations, inspections, and licensure activities. These activities are necessary for the government to monitor the healthcare system, government programs, and compliance with civil rights laws. Minnesota law requires that patient identifying information (for example, your name, social security number, etc.) be removed from most disclosures for health oversight purposes, unless you have provided us with written consent for the disclosure.

Lawsuits and Disputes: We may disclose medical information about you in response to a valid court order or statutory authorization, or with your written consent.

Law Enforcement: We may release medical information if asked to do so by a law enforcement official in response to a valid court order, grand jury subpoena, or judicial warrant. In addition, we are required to report certain types of wounds, such as gunshot wounds, and some burns. In most cases, reports will include only the fact of injury, and any additional disclosures would require your consent or a court order.

We may also release certain limited information for the following reasons:

- To identify or locate a suspect, fugitive, material witness, or missing person;
- If you are the victim of a crime and, under certain limited circumstances, we are unable to obtain your agreement;
- About a death we believe may be the result of criminal conduct;
- About criminal conduct at our facility; and
- In emergency circumstances to report a crime; the location of the crime or victims; or the identity, description or location of the person who committed the crime.

Coroners, Medical Examiners, and Funeral Directors: We will release medical information to a coroner or medical examiner in the case of certain types of death, and we must disclose health records upon the request of the coroner or medical examiner. This may be necessary, for example, to identify you or determine the cause of death. We may also release the fact of death and certain demographic information about you to funeral directors as necessary to carry out their duties. Other disclosures from your health record will require the consent of a surviving spouse, parent, person appointed by you in writing or your legally authorized representative.

National Security and Intelligence Activities: We will release medical information about you to authorized federal officials for intelligence, counterintelligence, and other national security activities only as required by law.

Protective Services for the President and Others: We will disclose medical information about you to authorized federal officials so they may provide protection to the President, other authorized persons, or foreign heads of state, or conduct special investigations only as required by law.

Inmates: If you are an inmate of a correctional institution or under the custody of a law enforcement official, we will release medical information about you to the correctional institution or law enforcement official only as permitted by law.

YOU HAVE THE FOLLOWING RIGHTS REGARDING MEDICAL INFORMATION WE MAINTAIN ABOUT YOU:

Right to Inspect and Copy: You have the right to inspect and receive a copy of your medical information that is used to make decisions about your care. Usually, this includes medical and billing records maintained by Lakewood Health System.

SOURCE: HIPAA

If you wish to inspect and copy medical information, you must submit your request in writing to Lakewood Health System's Health Information Management Department. If you request a copy of the information, we may charge a reasonable fee for the costs of copying, mailing, or other supplies associated with your request, to the extent permitted by state and federal law. If we maintain your health information electronically as part of a designated record set, you have the right to receive a copy of your health information in electronic format upon your request. You may also direct us to transmit your health information (whether in hard copy or electronic form) directly to an entity or person clearly and specifically designated by you in writing.

We may deny your request to inspect and copy your information in certain very limited circumstances. For example, we may deny access if your provider believes it will be harmful to your health or could cause a threat to others. In these cases, we may supply the information to a third party who may release the information to you. If you are denied access to medical information, you may request that the denial be reviewed. Another licensed healthcare professional chosen by Lakewood Health System will review your request and the denial. The person conducting the review will not be the person who denied your request. We will comply with the outcome of the review.

Right to Request Amendment: If you believe that medical information we have about you is incorrect or incomplete, you have the right to ask us to change the information. You have the right to request an amendment for as long as the information is kept by or for Lakewood Health System.

To request a change to your information, your request must be made in writing and submitted to Health Information Management. In addition, you must provide a reason that supports your request.

Lakewood Health System may deny your request for an amendment if it is not in writing or does not include a reason to support the request. In addition, we may deny your request if you ask us to amend information that:

- Was not created by Lakewood Health System, unless the person or entity that created the information is no longer available to make the amendment;
- Is not part of the medical information kept by or for Lakewood Health System;
- Is not part of the information which you would be permitted to inspect and copy; or
- Is accurate and complete.

Right to an Accounting of Disclosures: You have the right to request an "accounting of disclosures." This is a list of the disclosures we made of medical information about you. This list will not include disclosures for treatment, payment, and healthcare operations; disclosures that you have authorized or that have been made to you; disclosures for facility directories; disclosures for national security or intelligence purposes; disclosures to correctional institutions or law enforcement with custody of you; disclosures that took place before April 14, 2003; and certain other disclosures.

To request this list of disclosures, you must submit your request in writing to the Privacy Officer. Your request must state a time period for which you would like the accounting. The accounting period may not go back further than six years from the date of the request, and it may not include dates before April 14, 2003. You may receive one free accounting in any 12-month period. We will charge you for additional requests.

Right to Request Restrictions: You have the right to request a restriction or limitation on the medical information we use or disclose about you. If you pay out-of-pocket in full for an item or service, then you may request that we not disclose information pertaining solely to such item or service to your health plan for payment purposes or health care operations. We are required to agree with such a request, unless you request a restriction on the information we disclose to a health maintenance organization ("HMO") and the law prohibits us from accepting payment from you

SOURCE: HIPAA

above the cost-sharing amount for the item or service that is the subject of the requested restriction. However, we are not required to agree to any other request. If we do agree, we will comply with your request unless the information is needed to provide you emergency treatment or you request that we remove the restriction.

To request restrictions, you must make your request in writing to Health Information Management. In your request, you must tell us (1) what information you want to limit; (2) whether you want to limit our use, disclosure, or both; and (3) to whom you want the limits to apply, for example, if you want to prohibit disclosures to your spouse.

Right to Request Confidential Communications: You have the right to request that we communicate with you about medical matters in a certain way or at a certain location. For example, you can ask that we only contact you at work or by mail.

To request confidential communications, you must make your request in writing to Health Information Management. We will not ask you the reason for your request. We will accommodate all reasonable requests. Your request must specify how or where you wish to be contacted, and we may require you to provide information about how payment will be handled.

Right to a Paper Copy of This Notice: You have the right to receive a paper copy of this Notice. You may ask us to give you a copy of this Notice any time. This notice is on our website: www.lakewoodhealthsystem.com.

Changes to This Notice

The effective date of this Notice is April 14, 2003, and it has been most recently updated on February 6, 2026. We reserve the right to change this Notice. We reserve the right to make the revised or changed Notice effective for medical information we already have about you, as well as any information we receive in the future. If the terms of this Notice are changed, Lakewood Health System will provide you with a revised Notice upon request, and we will post the revised Notice on Lakewood Health System's website (www.lakewoodhealthsystem.com) in designated locations in Lakewood Health System's facilities.

Complaints or Questions

If you believe your privacy rights have been violated, you may file a complaint with us or with the Secretary of the Department of Health and Human Services. To file a complaint with Lakewood Health System, or to ask a question about this Notice, contact our Privacy Officer by calling 218-894-8511 or sending an email to allisontwardowski@lakewoodhealthsystem.com. All complaints must be submitted in writing. You will not be penalized for filing a complaint.

OTHER USES AND DISCLOSURES OF PROTECTED HEALTH INFORMATION:

We are required to obtain a written authorization from you for most uses and disclosures of psychotherapy notes, uses and disclosures of protected health information for marketing purposes and disclosures that constitute a sale of protected health information. Except as described in this Notice, Lakewood Health System will not use or disclose your protected health information without a specific written authorization from you. If you provide us with this written authorization to use or disclose medical information about you, you may revoke that authorization, in writing, at any time. If you revoke your authorization, we will no longer use or disclose medical information about you for the reasons covered by your written authorization, except to the extent we have already relied on your authorization. We are unable to take back any disclosures we have already made with your permission, and we are required to retain our records of the care that we provided to you.

This institution is an equal opportunity provider and employer.
